Concept of the exhibition:	«CUSP» presents a mini retrospective of the work of Bahraini artist Rashid Al Khalifa, from atmospheric landscape paintings that mark the beginning of his artistic career in the 1970s, to his latest robust aluminium installations. Despite the diversity of his oeuvre in terms of style and medium, there is an undercurrent that flows through decades of creative work, driven by Rashid's desire to develop and evolve. In many respects, the stylistic transitions that define certain periods, reflect the changing landscape of Rashid's country and the passages of his life.
